High School Results.

Following are the results
of the June examinations, is-
sued by the Department of
Education, of the standing of
the pupils in the classes at the
local high school—

First year—	p.c.
45 out of 53 papers....	84.91
Second year—	
35 out of 36 papers....	97.22
Third year—	
44 out of 56 papers....	78.57
125	144
	85.22

Highly Recommended

Of our new accountant at
the local branch of the Cana-
dian Bank of Commerce, G. Y.
McLean, the Vermilion Stan-
dard says: "Mac" will be
greatly missed, being a live
wire in all activities of the
town, both social and other-
wise, and his place is going
to be mighty hard to fill—in-
fact his removal is a distinct
loss to the community. The
best of good wishes for con-
tinued success will follow both
Mr and Mrs. McLean to their
new home."

LOCAL NEWS.

Dr Oatway announces his
return from Wellville.

Mr Thackeray left Sunday
on a trip to Victoria, B.C.

W W Brown, former pri-
or of Royal Hotel here,
but now of Grand Island, Ne-
braska, is in town this week.

Mr Albert Oeming made a
motor trip to Tawatinaw this
week.

Miss Hutchison returned,
this week, from a vacation
spent in Vancouver.

W E Bristow (timber in-
spector) and Charles Bristow
were visitors in Stony on
Saturday.

The Miller storehouse at
the corner of Main and First
streets is being fitted up for
use as the new postoffice.

Mr Henry Treit, who pro-
ved to be very successful in his
studies while at Concordia
College, Edmonton, is leaving,
next week, to pursue his stud-
ies at Concordia College, in
Springfield, Illinois. He was
tendered a farewell party last
Sunday evening by a large
party of his friends in Stony
Plain and Bruderheim dis-
tricts. The party wound up
with a marshmallow roast and
by singing "He's a Jolly Good
Fellow."

Stony Plain Town school
opens Thursday Sept. 1, with
a complete new staff of teach-
ers. St. Matthew schools No.
1 and 2 open on the same
date.

Blueberry school opens on
Monday next, Aug. 29.

Miss Edith Schultz, former
principal at Blueberry school
but now of Calgary, is visit-
ing with old friends in the
district.

Mr Jac Ulmer, a graduate
of a Lutheran college at St.
Louis, Mo., and a former res-
ident of Stony, left Tuesday
for Winnipeg, where he is to
take charge of a school.

Two pupils of Mr Boettcher's
school, in town, were suc-
cessful in the competition,
open to all children, for the
best essay on "Confederation."
Miss Anna Miller and Miss
Louisa Oppertshausen, pupils
of this school, were awarded
bronze medals for their ef-
forts.

A come-together party was
held Monday morning, in front
of Mrs. Enders' residence, on
Meridian road. The parties
which came together were Mr
Geo Meisner and Rev W J
Whelan, each ensconced in a
motor vehicle. Mr Meisner
was following another motor
car that had raised quite a
cloud, obscuring the trail.
Each vehicle was fairly well
battered up; but the parties
concerned arrived at a mutual
understanding as to payment
of the repair bills.

Canada To The Fore

Canada is certainly being kept well before the people of the British Isles this year and to a greater or less extent is calling for the attention of the people of the United States. The publicity the Dominion is receiving is of the best and most effective type and can hardly fail to be productive of results highly beneficial to the country.

The elaborate and wonderfully successful celebrations in connection with the Diamond Jubilee of Confederation focused the attention of the Empire, and large sections of the United States, upon the Dominion and led to a study of its past history and the really marvellous development of the country during the past sixty years. Canada today is better known and appreciated not only by the people of Canada, but by the world. The story of its development and its future possibilities has been told far and wide and in such a way as to command the earnest attention and consideration of people of power and influence.

Following the Jubilee celebrations, the visit of J. R. B. the Prince of Wales, Prince George, and Premier Baldwin has again kept Canada prominently before the people of Great Britain. The tour of these distinguished visitors has been followed with the keenest interest by the British people, and it is well within the bounds of probability that a very great stimulus will thus be given to British immigration to Canada.

The ceremonies attendant upon the dedication of the Memorial Chamber in the Peace Tower at Ottawa by the Prince of Wales in his simple but impressive dignity could not fail to impress the British people. So, too, the unveiling of the statue of Sir Wilfrid Laurier who so nobly carried on the work of the Fathers of Confederation and who was always a commanding and popular figure in the eyes of British Britain. Finally, the official inauguration of the Peace Bridge at Niagara attended by the heir to the British crown, the Premier of Great Britain, the Premier of Canada, the Vice-President of the United States, the Governor of New York, the Lieutenant-Governor of Ontario, and other high officials, provided a friendly meeting ground of the whole English-speaking family and provided an object lesson for all the nations of the world.

The present year has witnessed the placing of a Canadian Minister at Washington and an American Minister at Ottawa; it has revealed the expanding trade of Canada with the world; prosperity and decreased taxation at home; substantial reductions in the National debt; growth and development in all directions. Men of prominence in the life of Great Britain have visited Canada in increasing numbers, and at the present time, proprietors of nearly one hundred international British steamships are leaving the Dominion from coast to coast, seeking for themselves the prevailing prosperity and sizing up the untold possibilities of the future.

It is no idle boast to say that the Twentieth Century is Canada's century. But for the interruption of the Great War and the ensuing depression, and reconstruction rendered necessary to make good war's destruction Canada would now be much farther along the road to the goal set for it when the century opened. It may well be, however, that the very conditions created in the Old World as a result of the war will have such far-reaching results in the movement of population that, in the long run, Canada will stand the standpoint of settlement and economic development more than make up for the lost war years.

Certain it is, that Canada knows to the world as nothing else could have done. Through Canada found its own road, realized its own capacity for achievement, developed its productive and financial strength, proved its ability to solve difficult problems and handle great enterprises. Now, in its Jubilee year, the Dominion is feeling the impulse of a rejuvenated National spirit and is enjoying the fruits of an era of marked expansion in all lines of national endeavor.

The effect is everywhere noticeable throughout the Dominion and the Canadian people are fortunate in that the facts of Canada's growth, development and potential wealth are being investigated by the Old World as never before, and the story told to the millions by their own leaders following personal visits to this country. Canada can realize readiness to the full extent that her citizens are prepared to strive for and by service and effort bring to fruition.

Motor Casualties Increase

Daily Toll of Accidents Has Become Appalling

Notwithstanding all the warnings and regulations intended to ensure the safety of those who use the roads, the daily toll of accidents is appalling and the total casualty roll must be something enormous. The majority of these accidents are preventable, and the worst feature about many of them is that it is so often not the driver who is killed. The fact often could be secured more readily if it were the only person whose life he endangers, but frequently it is the innocent party who suffers most when the speed limit is ignored.

W. N. U. 1935

Quota Law Is Needed

Immigration From Central Europe To Canada Should Be Limited

Last May 33,000 immigrants were admitted to Canada. Only 5,000 were British born. So nearly two-thirds of the new settlers were of non-British race.

What is to be done to Canada? Our immigration Department is allowed to continue that policy. With the experience of the United States before us, we seem to be bent on committing national suicide.

The greatest need of Canada is a quota law that will limit the flow of Central Europeans, and encourage the British and Nordic races to come to this Dominion. — The Sentinel, Toronto.

Open Season For Elks

Open season for elks, during which a hunter may take one adult male animal, has been declared in Saskatchewan. Sixteen days, from November 15 to November 30, inclusive, will constitute the first open season which has been allowed since 1918. The stop has been taken, according to the game commissioner's report, because of the large increase in the numbers of these animals in the last few years.

"Pedal Propelling" Boat

Refused To Function

Craft Is Useless—Trip Across Atlantic Has Been Abandoned

Confessing that the idea of "pedal propelling" across the Atlantic is a failure, Edward Tierney and Dick Hayman, of Lancashire, are understood to have definitely abandoned the plan to make such a crossing and to be ready to sell their strange craft. Tierney tested the boat, called the "Carrie," in the harbor and was dismayed to find she refused to function. After repeated attempts, he said: "The craft is useless. She has a bad list and leaks badly. The pedal propelling idea is a failure."

"Carrie" is a 12-foot steel boat built like a submarine. She has a beam of three feet and draws two feet of water. She was designed to obtain power mainly through the force of the wind against a small windmill which drives a screw propeller. In calm weather the navigators were to use muscle power to drive the propeller by means of foot or hand pedals. When the plans were made, Tierney and Hayman said they hoped to make the crossing in forty days.

Use This Liquid

To Peel Off Corns

An amazing remedy—acts in a few days and causes no pain. The corns shrink up and loosen. Another application, or two and the corn drops out. Wonderful! It is—But it is just how Putnam's Corn Extractor works. You can buy Putnam's Corn Extractor from many druggists. Get your bottle today. It's a safe substitute for Putnam's.

Postpones South Pole Trip

Commander Byrd Decides Details Cannot Be Arranged This Year

After careful consideration of the danger involved in a hasty preparation for his expedition to the South Pole, Commander Richard E. Byrd has announced that the undertaking would be postponed until 1928. Previously, while in Paris, he had expressed the hope that he could make the start this year. It was explained that Commander Byrd expected to encounter severe storms and conditions which would make a mishap of any kind almost surely fatal.

RETAIN YOUR VIGOR

This Can Only Be Done by Keeping the Blood Rich and Red

If you would regain your vigor and ambition, keep your blood and nerves in good condition. Anemia, or thin blood, lowers the vitality, saps the nerves and causes a general run-down condition. When the blood is thin the skin loses its color, the shoulders droop and weight is lost. The victim manifests loss of appetite, nervousness, irritability, headaches and sleeplessness, and is nervous and exhausted after slight exertion. If you have any of these symptoms do not delay but begin treatment now with Dr. Williams' Pink Pills and you will be satisfied with the improvement in your condition. Among the thousands who have found new health through the use of this medicine is Mrs. Herbert Nagle, Ludlow, N.H., who says: "I had not been feeling well for some time and was gradually growing weaker. I would take dizzy spells and often faint. I was subject to severe headaches and found it hard to do my work. I took doctor's medicine for some time, but it did me no good, and I was still growing weaker. In this condition I began the use of Dr. Williams' Pink Pills and in a short time found they were doing me good. I continued the use of the pills for a while longer, and found that the trouble that had bothered me was gone and I was once more a well woman."

Get Dr. Williams' Pink Pills at your druggist or write to Dr. Williams' Medicine Co., Brockville, Ont., and the pills will be sent post paid at no cost to you.

No Change In Style

A young married woman who believed that adopting infant management coincided with her own appearance upon earth called in the doctor to see her baby, suffering from some trivial ailment. He prescribed some simple remedy, doctor! protested the mother.

"But that is such an old-fashioned remedy, doctor!" protested the mother. "Well, madam," replied the doctor, "babies are very old-fashioned things."

For Corns and bunions use Minard's Liniment.

Cougars Attack Sheep

Farmer On Cortez Island Had Entire Flock Wiped Out

Sheep owners on the east coast of Vancouver Island and adjacent islands have suffered heavily of late from losses by wild animals, one farmer on Cortez Island having had his entire flock wiped out by cougars. Cecil Smith, of Courtney, paid a visit to the island and succeeded in killing three cougars, two of the big cats being shot at night by the light of a lamp. Two cougars were also killed by Mr. Smith on the same island, a short time previously. There is a provincial bounty of \$10 per head on cougars. In the Nanaimo and Oyster River district bears are reported to have killed many sheep.

Relief From Asthma. Who can describe the complete relief from suffering which follows the use of Dr. J. B. King's Asthma Remedy? Who can express the feeling of joy that comes when his soft and gentle influence relieves the tightened, choking air tubes? It has made asthma affliction a thing of the past for thousands. It never fails. Good druggists everywhere have sold it for years.

Death Of Noted Author

James Oliver Curwood Was Author of Stories of Canadian North

James Oliver Curwood, author of stories of the Canadian North and noted conservationist, died at his home at Oswego, Mich., after an illness resulting from streptococcus infection which had continued his bed for one week.

Mr. Curwood was credited with being one of the foremost authorities on matters pertaining to the Canadian North West, and, over a year since he began his career as an author, in 1908, he passed several months in that territory frequently travelling to the north as the Arctic coast. He is said to have been the only American ever employed by the Canadian Government as an explorer and descriptive writer.

Curwood's love for the outdoors motivated his life and his work as a novelist. He published 24 novels. "The Courage of Captain Phing" was his first novel, written in 1908, after he had spent seven years in newspaper work.

Writing was in Curwood's blood. On his father's side he was descended from Captain Marmat, the novelist. He was born June 12, 1878, the son of James Moran and Abigail (Griffin) Curwood.

Hotel For Children Only

Berlin claims to have the first hotel for children only. This hotel was erected by the city's juvenile welfare organization in one of the quiet districts of Berlin. It accommodates children sent to recreation places, who have to make a stop-over in Berlin. The hotel has room for 350 youngsters.

Minard's Liniment for scaly scalp.

Broadway Sometimes Dark Broadway, New York, is the darkest main street in the United States after two or three o'clock in the morning. After the commercial lights in the electric signs and stores are put out New York's brightest highway is very dimly lit. There are 1, 2, 3, 4, 5 lamps along the Great White Way.

Held Breath Fourteen Minutes

College Man At Middleton, Conn., Breaks World's Record

E. L. Gaylor, Jr., of Cliffside, Mass., a member of the senior class at Wesleyan, has broken the world's record for breath-holding by establishing a time of 14 minutes 2 seconds.

The previous mark was made at the University of California, in 1916, when 10 minutes 20 seconds was recorded.

Gaylor accomplished his feat by breathing excessively a short time before holding his breath, to rid his blood of much of the carbon dioxide. To prepare himself further he concluded the process with three breaths of oxygen, the last of which he held for the record time.

Prof. E. L. Schneider of Wesleyan says the authenticity of the test can not be questioned, as a graphic record of chest and diaphragm motion over the entire period gave convincing evidence that at no time while the test was being made could air have been taken into the lungs.

Miller's Worm Powders were devised to promptly relieve children who suffer from the ravages of worms. It is a simple preparation to destroy stomachic and intestinal worms without shock or injury to the most sensitive system. They act thoroughly and painlessly, and though in some cases they cause vomiting, that is an indication of their powerful action and not of any nauseating property.

To Occupy Marlborough House

Prince Of Wales To Change His Residence On Return To England

The Prince of Wales will change his residence from York house to Marlborough house almost immediately on his return from Canada. The work of reconditioning Marlborough house is now being accelerated so as to have the place ready for the Prince as soon as possible.

It is scarcely concealed that his royal highness does not altogether relish changing from his compact quarters at York house, which is within a stone's throw of Marlborough house, but the latter has so many associations with King Edward VII. in his day as his apartment that it seems only fitting, now that King Edward's gracious consort, Queen Alexandra, is no more, that the historic residence should be occupied by the present heir to the throne.

Its Quality Sells It.—The fact that so many thousands of intelligent people continue to use Dr. Thomas' Electric Oil speaks volumes for its healing efficiency. Ever since it was first introduced it has grown steadily in public favor, owing entirely to its manifold usefulness in relieving and healing sickness. As a specific for cuts, burns, scalds, and various inflammatory pains its record is beyond reproach.

If your boss is not satisfactory, just mention it to him and perhaps he will permit you to resign.

A sensible man doesn't care if he isn't good looking; he knows that there are others.

NEW BROWN REMEDY, INC. THERAPION. A new and powerful remedy for all ailments. It is a specific for cuts, burns, scalds, and various inflammatory pains. Its record is beyond reproach.

Would Banish All Wars By Interesting The Public In The Cause Of Internationalism

"Internationalism through education" was the theme of an eloquent address to the second biennial conference of the World Federation of Education Associations at the University of Toronto, by Raphael Herman, of Hollywood, Cal. Mr. Herman has devoted years of his life and a large portion of his fortune to the cause of internationalism.

After expressing his diffidence as a layman before professionals, Mr. Herman congratulated the federation on having selected Canada as its meeting place. The 3,000 mile length of unprotected frontier between Canada and the United States spoke volumes for the actual possibility of neighboring nations continuing to live at peace with each other, he said.

"May I be permitted to state at the outset that I am neither militarist nor pacifist," opened the speaker.

"I am an 'internationalist,' that is, one who loves his own country with devotion, but is convinced that patriotism does not lie only in a willingness to die for one's country, but also to live for it. As such, I come to plead the cause of world peace through education, the only practical means of solving the problems which face humanity. I come to plead to you, educators of the coming generation, by whom alone this can be brought about—in whose hands lie the peace and the destinies of the human race.

"The modern conception of internationalism is not based on the extinction of national individuality. It is founded on the principle of the creation and the preservation of harmony in the midst of difference, such as is achieved in a mosaic, where one piece may contrast with, but fits into and contributes to the beauty of the whole intricate pattern. Nationalism and internationalism are complementary. Each is necessary to the other for the complete life, and each should amount to a passion and as such be accepted as a normal manifestation of human nature.

"Political thinkers, philosophers and economists have recognized the principle that for the solution of many of its own problems one nation depends on others. The complex of all nations includes an intense desire for the development of national individuality and all that it implied in the direction of cultural and political ideals. This is a fundamental, biological and psychological fact. It forces recognition of the corollary—that unless nations in their dealings with each other are guided by some sense of internationalism such as I have defined, they will fall short of their own ideals and in the attainment of the highest form of existence possible.

"It is urged that training for war is easy because it is according to nature, whereas training for peace is impossible because it is contrary to nature. We need not put to the United States and Canada. If the pacifist spirit is possible here it should be possible elsewhere and with its appearance elsewhere the world's problems would, in a large measure, seem to be solved.

"It was absolutely essential that the young should be taught history accurately and without bias," Mr. Herman declared.

"Youth should be impressed with the idea that truth must not be made subservient to a desire to enforce a personal viewpoint.

"History should tell the great advantages of peace over war. Peace and not war, peace with its great beneficial love is the great and only achievement worth the while which will lead to thoughts of friendliness and goodwill and things which make for the genuine progress and happiness of the world.

"History should not be taught to little children because things must be brought down to a standard in order to make it understandable to them."

Mr. Herman supported his contentions by quotations from Premier Stanley Baldwin, Premier Briand, Foreign Minister Stresemann, and other statesmen.

"We have many colleges and excellent textbooks on military sci-

ence," continued the speaker. "Pupils in kindergartens are taught to worship war and its heroes, like Caesar, Napoleon and Motike; and we are taught to admire deeds which we could condemn indignantly if done in the ordinary walk of life.

"But we do not have a single school for peace. Just think of it! not a single association that could be called the pioneer of a great peace empire in which we could discuss the mutual comprehension and clarity subject that become distorted and confused in the turbid atmosphere of the street. We must therefore begin with the spiritual and intellectual aspects of peace and have schools of peace like those of war, which will lead directly towards the goal which is not less than the establishment of the Kingdom of God on earth.

An Absent-Minded Shopper

Woman in London Store Walks Through Plate Glass Window
A woman shopper absent-mindedly walked through a plate glass window at Folkestone recently.

The woman had made a purchase at a drapery shop and was preparing to leave. At the time the back of one of the large windows was open, ready for dressing.

The customer unconsciously walked up the step leading into the window and then across the empty window floor right into the plate glass, stepping 14 by 15 feet.

The window was shattered, but the customer escaped uninjured.

When asked for an explanation she said she must have been thinking of something else.

A Chic New Frock

Exceedingly smart in this frock of youthful charm, having groups of plaits in the front of the skirt and a plain back. The bodice has tucks at each shoulder, a shaped collar, long sleeves gathered to wristbands, or short sleeves with cuffs, and a trim belt. No 1618 is in sizes 16, 18 and 20 years. Size 18 (36 bust) requires 2 1/2 yards 39-inch, or 2 3/4 yards 44-inch material; 3/4 yard less 29-inch material for short sleeves; 3/4 yard additional 29-inch contrasting for View B. Price 29 cents the pattern.

Transfer Design No. 1176 is used to embellish the bodice front of View B. Blue or Yellow. Price 25 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

New Coal Product

Cheaper Than Oil Says Agent Of English Firm

If A. Bradstreet, of London, who arrived in New York recently on the Berengaria, represents the feasible coal product of England, which is the owner of a newly patented reducing process for coal that leaves a residue which, when pulverized, can be used, he said, in ships and locomotives.

"The whole secret of this unlocking of the products of coal is very simple," said Mr. Bradstreet. "The coal is put into a big rotor, similar to a cement mill, and while the rotor rotates the hot, inert gases make the coal yield up the volatiles from which the products are obtained. The residue is left, and it, when pulverized, can be handled with safety.

"We gave a demonstration on July 12 for the British Institute of Naval Architects at Cambridge University, at which representatives of the United States Shipping Board were present. As a result of that demonstration I am in New York."

"Oil is too expensive as a fuel, as large shipping companies in England and America have learned. They are now turning to pulverized coal that will flow as easily as oil, and will give the same steaming radius at from one-fifth to one-sixth the cost."

Poultry Congress Great Success

Exceeded the Most Sanguine Expectations Of Proponents

The Third World's Poultry Congress which was held in Ottawa from July 27 to August 4 was a greater success in every way than its most sanguine promoters expected. Forty-two countries sent delegates and the live birds on exhibition totalled nearly 10,000.

There were birds from the poultry farms of King George V. of Britain, the Prince of Wales, and from the farms of other reigning monarchs in Europe. The United States and Canada had very large and attractive exhibits which indicated the progress that poultry raising has made in North America. Several thousand delegates and visitors from the United States attended the Congress and took an active part in the sessions of the Congress. On August 3, H.R.H. the Prince of Wales, his brother Prince George, His Excellency Viscount Willingdon, Governor-General of Canada; Rt. Hon. Stanley Baldwin, Prime Minister of Britain, and Rt. Hon. W. L. Mackenzie King, Prime Minister of Canada, visited the Congress exhibits.

Increasing Attention Paid By Authorities To Protection Of The Health Of The Public

Do Hens Need Open Runs

Confined in Pens Or Allowed To Run In The Open, Advantages Are About Equal

For five years an experiment has been under way at the Augustus Experimental Farm to find out whether or not laying hens do better confined in pens or allowed their freedom in the open. The report of the station for last year giving the results of this experiment and also deals with live stock, field crops, gardening, and other experiments, is available at the Publications Branch of the Department of Agriculture, Ottawa. Barred Plymouth Rocks comprising ten pullets in each pen have been used from year to year. The results for the five years show that the advantages are not great either way. The birds confined to their pens gave an egg yield of 189 per bird, while those on range laid on an average of six eggs less. The value of the eggs was practically the same, being \$4.72 per bird for the confined lot, and \$4.58 for those on range. There was but one cent per bird difference in the cost of feeding, which amounted to \$2.77 for the confined birds, and \$2.76 for the others. The grain fed consisted of equal parts by weight of wheat, oats, and ground corn with a mash consisting of weight of 100 pounds each of bran, shorts, corn meal, and crushed oats, and 75 pounds of beef scrap and two per cent of charcoal.

Easterners Should See West

"It is a pity more Eastern Canadian travellers do not travel through the West. They have no idea of the marvellous scenic beauty, or of western progress," in the opinion of Lady Rodd, Montreal, who has been on a seven weeks' tour of the west and Alaska—her first trip west of the Great Lakes. Marvelling at the mountains, she was yet most enthusiastic over the prairies, and the size of prairie towns she found astonishing.

Will Raise Sheep

The Earl of Minto has recently been selling off his pure-bred cattle in order to devote his attention to sheep-raising. There are already 1,500 sheep on his Alberta ranch and more will be added from time to time.

One of the most essential duties of a government is the proper protection of the health of its people. This thought became so forcible in its demand for action that a Department of Health was formed at Ottawa in 1919, its primary factors being derived from other departmental branches concerned with health matters.

Since its inception the scope of the department has gradually increased, and now in Canada's Jubilee year, we find strong, concentrated effort working for the welfare of Canadians through the medium of the Health Department.

The Quarantine Service of a country stands for protection against the introduction and spread of contagious diseases. In this connection there are in operation five large completely organized quarantine stations. Every port of entry through its custom officer acts as a sub-station.

A medical inspection of immigrants is carried on at all ports of arrival and immigrants mentally and physically unfit are prohibited from entry.

Previous to the inauguration of a world-wide plan for the care of sailors who are sick or injured while on board ship, it was the practice of many vessels to land sailors at the next port and sail away, leaving them in charge on the community. To overcome this difficulty a tax is now imposed, according to tonnage, on all ships arriving at Maritime ports, and the Canadian Government assumes the cost of all sick and injured sailors arriving at ports of entry.

The suppression and control of the narcotic drug traffic has a world-wide significance. And Canada, through this department is well to the front in the work accomplished. Approximately 253 pounds of opium, 250 ounces of morphia and heroin and 127 ounces of cocaine were seized in Canada during the past year. No less than 368 aliens were deported from Canada after conviction for various offences under the Act.

The problem of patent medicines has for many years been a difficult one in all countries, where efforts were made to do systematic and control these products. Within the last few years the number of these preparations on the market under license in Canada has been reduced from approximately 50,000 to 5,500 and all preparations for which exaggerated claims are made, or those of foolish or harmful composition have been excluded.

Splendid work is being accomplished in the Child Welfare department. It is concentrating its effort on the problem of maternal mortality. Shortly, the importance of this question will be brought before the physicians and the Canadian public. Publications dealing with this subject and with Child Welfare have been issued by the department.

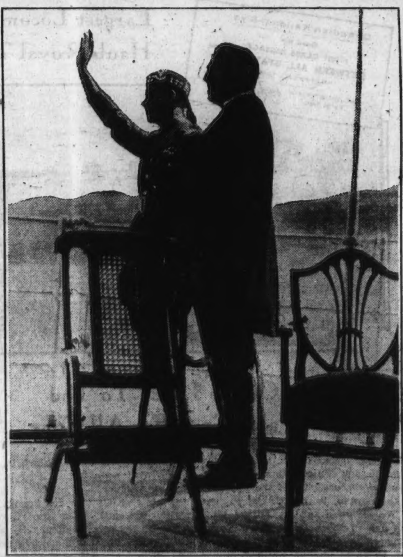

The adulteration of food has been a prolific source of fraud for centuries. The food and drug laboratory of the department examines thousands of samples of food products every year in its endeavor to give the consumer exact weight or measure, and a bona fide product, as printed on the label. Owing to the fact that the traffic on the Great Lakes and other inland waters of Canada has increased with the population, the waters of the lakes became correspondingly polluted and unsafe for human consumption. This is particularly true in the harbours and at the shore line. All vessels are now inspected and must carry pure water for the use of the passengers and crew.

Report Is Denied

Officials of the Canadian Government Merchant Marine denied the report that the C.G.M. would establish a regular steamship service between Vancouver and the West Coast of Mexico and South America. It was understood that the located office that plans were under way for such a service, but it will not be operated by the merchant marine.

Friend: Why did you send that dish back if there was nothing wrong with it?

Scottsman: Well, mum, if ye gie the impression that ye're no satisfied wi' the service the waiter'll no expect such a big tip.

Prince and Baldwin at Ease

This study of His Royal Highness the Prince of Wales and Premier Baldwin of Great Britain, was taken on the deck of the Canadian Pacific liner Empress of Australia as she steamed towards the King's Wharf at Quebec where a thunderous welcome awaited the distinguished visitors.

The Prince and the Premier had found a sunny spot at one end of the deck and were enjoying their first good glimpse of the Ancient Capital. Contrasting to the peacefulness of this scene the great guns from the Citadel boomed their welcome while thousands of people cheered incessantly from the gaily bedecked decks, and shore line.

WORLD HAPPENINGS BRIEFLY TOLD

London now has a telephone connection with Stockholm, Sweden.

J. Ogden Armour, head of the great packing industry bearing his name, died in London following a six weeks' illness with typhoid fever. He would have been 64 years old in November.

Great Britain and Jugoslavia have signed a debt-forgiveness agreement whereby the Jugoslavian war debt of \$17,500,000 will be paid in 62 annuities beginning this year.

The eightieth birthday of President Hindenburg is to be commemorated by the issue of stamps sold at slightly higher rates than the face value, and the profits to be devoted to charities.

Only about 5,000 people are participating in the rush to the new diamond field at Wolvledend, Transvaal, compared with 25,000 in the recent rush to Grasfontein, according to the Daily Mail's Johannesburg correspondent.

A remarkable yield in fall wheat is reported from Markham Township, Ontario, on the farm of Deputy Reeve R. L. St. Iver, who has recently finished threshing 600 bushels of wheat of the Dawson Golden Chaff variety, from less than 15 acres of land.

Sixteen deaths from pneumonia are reported to have occurred during an epidemic on the British steamer Sutil, carrying 800 immigrants from Trinidad to Calcutta, an Exchange Telegraph dispatch from Capetown says.

The name Lemieux has been approved for a chain of islands at the entrance to Cumberland Sound, Baffin Island, Franklin district, Northwest Territories. The islands have been named after the Hon. Rodolphe Lemieux, the Speaker of the House of Commons, Canada.

Sachs (Perry) Hall, Santa Ana, California, has confirmed reports that she was negotiating with J. F. Shay, of New York, said to represent a New York newspaper, for financial backing for a transatlantic flight in which she would be the first woman to pilot a plane in the ocean hop.

Surveys of a road route between Prince George and the boundary of Alberta, have been ordered by the public works department in the belief that this highway, as well as a road up the North Thompson river, will be needed at some time to accommodate growing travel.

How Icebergs Are Destroyed

Method Of Using Thermite Is Found Highly Successful

An iceberg of almost indescribable beauty, 500 feet long, with a hollow in the centre 90 feet in depth, having sides of porcelain white and containing an emerald-green lake 4 feet deep, was encountered by a recent iceberg demolishing party.

Armed with ropes, ice picks, axes, drills, and cauls containing their nife, they were trying a highly successful method of destroying icebergs that endanger the trade routes of the North Atlantic.

On landing, the party drill holes into the ice and insert the chemical charge, which is fired by fuses. Thermite develops tremendous heat at a great rate, reaching as high as 5,000 degrees Fahrenheit. In a few hours the largest iceberg cracks and disintegrates with a noise resembling an earthquake.

MORTON'S FALL and WINTER CATALOGUE

Is now ready. Have you received your copy? If not, we will send you one of charge on request. This issue contains the latest Fall and Winter styles in Ladies' Coats, Dresses, Hats, Underwear, Hosiery, Socks, Men's Clothing and Linen. Household Linens, Blankets and Towels, Ribbons and Hosiery. Send a post card now for our free catalogue.

Tribute To Mr. Baldwin

Is a Patriot in the Best Sense of the Word

A very prominent man, not of Mr. Baldwin's political faith, remarked last year that the Prime Minister of Great Britain never stood out so great a figure as in the closing days of the General Strike, and that his greatness of character notably revealed itself by his magnanimous appeal when the fight was won. His words regarding the working men of his country in his recent address to the Ottawa Canadian Club again disclosed the big-hearted, sane, and generous man, patriot in the best sense of that hard-earned word.

A shrewd and successful man of business, nobody knows better than Mr. Baldwin the fallacies lying behind the doctrines preached by the militant minority of the Labor party. He has on a previous occasion pointed out the economic character of the practices of restricting output and placing the unskilled and easy-going workman on a parity with the skilled and active. The deserved and high tribute he paid to British workers as a whole, his appreciation of their difficulties, and his faith in their integrity of purpose make us understand once more how, in the perplexities and bitter strife which accompany profoundly changed conditions in the national life, England, almost alone amongst European nations, has not trodden, and is unlikely to tread, the bloody road of revolution. — Ottawa Journal.

Storms Make Atlantic Passage Formidable

Competent Ocean Weather Bureau and Suitable Planes Will Overcome Trouble

It is not distance but storms that make the Atlantic passage formidable. It will cease to be so when ships, heavier or lighter than air, are built specially for such a service, and a competent ocean weather bureau is established. Navigating skill in the air will consist largely in avoiding storms. Great Britain is completing a dirigible that will be used for voyages between England and Canada in 1928. A sister ship is to furnish a service to India and Australia. The presumption is that the sea will be crossed in a comparatively few years by multi-motored airplanes carrying express matter and passengers.

Many a shrewd man has purchased a gold brick in the form of experience.

WRIGLEY'S
is the ideal sweet for children and you, too.
It aids appetite and digestion, and satisfies the craving for sweets.
After Every Meal

The Line To Fort Churchill

No Engineering Difficulties Will Be Encountered in Laying Out New Road Bed

It is expected that the railway to Fort Churchill will be completed to the working end of the line, between the close of 1925, said C. S. Gzowski, chief engineer of the construction department of the Canadian National Railway, who has been charged by the Dominion Government with the rehabilitation and further extension of the Hudson Bay railway. Mr. Gzowski said: "At Churchill there will be no difficulty in establishing railroad terminals for any reasonable capacity required at a relatively small cost, the land being generally flat for a considerable width, giving a wide choice of location. The 150 miles of railroad construction to complete the line is generally very similar to the present H. R. railway. Soundings indicate that rock depths and conditions of front are the same as previously experienced."

"The summer of 1925 will be employed clearing and grading the route ready for track laying, bridging and ballasting in 1926. No bridges of consequence will be encountered. The proximity to various streams and rivers assures proper drainage to the roadbed."

The reason why a chicken crosses the street has been discovered. It is the same reason as that which makes a driver try to beat the train to the crossing.

SUNDAY SCHOOL LESSON

AUGUST 23

NATHAN LEADS DAVID TO REPENTANCE

Golden Text: "A broken and a contrite heart, O God, Thou wilt not despise." — Psalm 51:17.
Lesson: 2 Samuel 11:1 to 12:35.
Devotional Reading: Psalm 163:1-14.

Explanations and Comments

I. Nathan's Parable, verses 1-4: Several months have passed since David ordered the murder of Uriah and took to himself the latter's wife. Now the prophet Nathan has come, and in a graphic way, by means of a parable, he brings home to David the enormity of his sin.

There were two men in one city: one of them was rich, having exceeding many flocks and herds; the other little ewe lamb. Nathan adds one detail after another about that lamb so as to arouse the listener's sympathy for the poor man and abhorrence of the rich man's deed. He had bought and nourished it; it grew up together with him and with his children; it did out of his own morsel, and drank of his own cup, and lay in his bosom, and was unto him as a daughter. "The traveller was, as Bishop Patrick explains it, from the Jewish writings, the civil imagination, disposition, or desire, which came into David's heart." For this warring man's foot the rich man served the poor man's lamb, sparing his own flock and herd. — Matthew King.

As the Philadelphia Record observes, if the people who are blind to their own faults only realized it, what a business the oculists would do! H. David Passes Judgment on the Poet, verses 5, 6: — David supposes Nathan has brought a case to him for judgment. His anger is greatly kindled against the rich man, and, justifying his decision in the matter, the rich man deserves death, who had no pity and did so foul a deed shall endure four lambs for the one (see Exodus 21:1).

"The first thing that strikes is the blindness and infatuation of the man to have misused the application of the parable. It seems an almost impenetrable state of self-deception which could let him fare out an indignant virtue against the supposed culprit, and never once recall that the case could apply to himself. But it is not such an impossible thing as it looks; nay, it is even one of the commonest facts of morals, and one which we can easily illustrate any day among ourselves. We need not assent to a general statement of right and wrong, even give an unbiased judgment on concrete cases that are mentioned; and yet not make the personal application." — Hugh Black.

"About the only sure way to keep a secret is not to have a secret."

A Real Menace

Motorists Who Demand Right To Speed Have Spoiled Driving For Pleasure

Today there is a great demand for high-powered cars. Speed seems to be the most essential thing demanded by the motorist.

The Department of Highways recognized this early in the year, and in answer to public demand on the part of motorists' raised the speed limit on country roads from twenty-five to thirty-five miles an hour. But motorists are not satisfied with the new limit. They are purchasing cars capable of much greater speed, and they are demanding the right to use the power stored up in their motors.

This is, an indication of the present age — the speed age — and there are those who look for an increased legal speed limit in the years to come. Each year cars are travelling faster on the highway, and with this increased speed the dangers and perils of motor traffic are becoming immensely greater.

There are some motorists who are gradually giving up the pleasures of a country drive, and who are even refusing to drive their cars in the cities as a result of this tendency on the part of the general public to go faster and faster. — Chatham News.

Canadian National Ry's
Good for FIRST CLASS PASSAGE BETWEEN ALL STATIONS — valid FOR ALL TIME — valid FOR ALL TIME — valid FOR ALL TIME

Largest Locomotive In The Empire Hauls Royal Train Into New Station

First Ticket Out Is Issued To The Prince of Wales, Good For All Time

The first locomotive to haul a train into the new Union Station at Toronto, on the occasion of the opening of this station by H.R.H. the Prince of Wales, on Saturday, August 6th, was one of the 6100 Northern Type locomotives recently placed in service by the Canadian National Railway for handling their fast passenger and mail trains. These locomotives, which are the largest in the British Empire, and of which 40 have been ordered for use on Canadian lines, are distinctively a product of Canada. With tender, their overall weight is 324 tons; length 24 feet, and they are capable of developing more than 3200 horse power. It was this

"Titan of the Steel Rail" which hauled the royal train from Kingston to Toronto.

On this occasion also, the first railway ticket issued from the ticket booth of the new station was one entitling His Royal Highness to passage "Between All Stations" on the Canadian National System. Immediately after declaring the new station open, the Prince of Wales proceeded to the Canadian National Railway ticket window where he was issued "Ticket No. 1" of the issue of the new station. Tickets numbers two, three and four, were issued to Prince George, Premier Baldwin and Mrs. Baldwin, respectively.

Of the 61 Northern Type locomotives, such as used to haul the Royal train for this occasion, twenty are being built at Kingston and a like number at Montreal. These are distinctly the last word in locomotive construction in the British Empire. They are to be used on "The International Limited" and other famous passenger trains of the National System, and on the former train they will inaugurate the longest locomotive run in the Dominion — from Montreal to Sarnia, 611 miles without change. These locomotives are also convertible and may be used either in fast passenger or fast freight service.

Special issue to commemorate the opening of New Union Station at TORONTO, Ontario CANADA August 6, 1927

TENSE SITUATION IN CHINA OVER AVIATION POLICY

Shanghai.—In the midst of an increasing chaos in both the military and political situations in the Yangtze Valley, an incident arising out of the forced landing of a British military aeroplane on Chinese territory has developed a tense situation between the Chinese authorities and the British Expeditionary Force here.

Although the particular spot where the plane landed was held by Chinese soldiers and was the Kuangwei golf course, this land, nevertheless, lies outside the international settlement of Shanghai. The Chinese authorities have repeatedly protested against British airmen flying over any and all Chinese territory, whether used by foreigners who play golf or by Chinese generals for maneuvering.

Dr. C. C. Wu, Minister of Foreign Affairs for the Nanjing Nationalist Government, "announced" that the Chinese intend to use the incident for a show-down in the matter of rights over Chinese territory.

"The British in the eyes of the Chinese and international law are criminals as regards their aviation policy in China," he said, "and adding that although the Chinese had not the force to meet British 'imperialism' they intended to let the world know what the British were doing.

The aeroplane incident has resulted in British demands for the return of the wings of the plane, the only parts of the machine that a Royal Air Force detachment had not carried off to safety before Chinese troops arrived.

When the Chinese refused to restore the wings, Major-General John Duncan, the British commander, ordered the railway between Shanghai, Hangchow and Ningpo to be cut south of Soochow Creek and British troops were posted at strategic points around the city, thus reconquering the route held by them during the past several months ago which followed the capture of Shanghai by the Nationalists.

Poultrymen Visit Edmonton

Trip Through West Proving Enjoyable and Educational

Edmonton.—Representing 18 different countries, 120 delegates from the World Poultry Congress, recently held at Ottawa, arrived at Edmonton, mostly direct from long train journeys and anticipating a good rest in the city during the day.

Hon. J. S. Martin, Minister of Agriculture for Ontario, is one of the Poultry Congress tourist visitors who had not been before in Edmonton. He was a caller at the Parliament building during the morning, and compared notes for a short time with his Alberta running mate, Hon. George Hoodley.

A story of good crops all across Canada is told by the Ontario minister in his own province. The grain yield is only fair, but grain and other crops are excellent. With a particularly noticeable increase in the acreage under tobacco, he said.

Mr. Martin was greatly struck with the appearance of the wheat fields along the railway between Saskatoon and Edmonton and liked the summer fallowing that he saw there and elsewhere in the West. The whole trip through the West is proving both enjoyable and educational, he says, not only to the members of the poultry party who come from other countries but to Canadians, like himself, who are accompanying them.

Noted Artist Dead

London.—Richard Caton Woodville, English artist, known for his battle paintings, was found shot in his studio and died on the way to the hospital. He was born in London, January 7, 1856, and was educated in Germany. He exhibited his first picture in the Royal Academy in 1878, since which he has been represented annually. He painted several large pictures in Windsor Castle, for the Queen. He also wrote articles on sport and travel.

W. N. U. 1695

Harvest Help Arriving

Large Quota From Eastern Canada and British Columbia

Winnipeg, Man.—The great tide of harvesters will soon be flowing over the prairies. Arrangements have been completed for the handling of the thousands who will come from Eastern Canada, according to officials of the Canadian National Railways, and there will be no delay in getting them to the points where they are most needed. British Columbia, which will need 6,000 this year, has already begun its movement, 200 being on the way now from Vancouver and fifty from Victoria, and others will follow closely on their heels.

Eastern Canada will contribute 25,000 men to the harvest this year, it is estimated. Manitoba needs 9,000, and can get 6,000 locally; Saskatchewan asks for 40,000 of which half are available locally; and Alberta needs 18,000 of which 8,000 must come from outside the province. British Columbia has 6,000 available.

Alberta Coal For East

Outlook More Favorable For Shipments To Ontario This Fall

Toronto.—Following a conference here between Mayor Foster, Property Commissioner Chisholm of Toronto and Howard Stubbins, trade commissioner of Alberta, the outlook for coal shipments to Ontario this fall seems more optimistic for shipment to Toronto and Ontario generally of Alberta coal.

"As the railway commission is now considering the question of fixing an Alberta coal rate for shipment to eastern points, we have every hope that we are going to get a rate this year," said Mr. Stubbins, "and there is going to be a free movement of coal from Alberta to Ontario. The railway board, I expect, will make its findings before the end of the month and the government will have to take action after that. We feel pretty certain that the finding will be satisfactory. I am basing that statement on the evidence submitted."

Wins Pacific Air Race

Art. Goebel, Hollywood Stunt Flyer, Takes First Prize

Wholesaler Field, Honolulu.—Making a perfect landing at Wheeler Field, United States army aviation field 25 miles from Honolulu, the monoplane Woodhouse, piloted by Art Goebel, Hollywood, Calif., stunt flyer, landed here to win first prize of \$4,000 in the Bole air derby from California.

Nearly two hours after Martin Jensen, only Honolulu entrant, piloting the monoplane Aloha, descended and the thousands of spectators at the field, winner of the \$10,000 offered for second prize.

Entitled To Equal Favors

Canadians In U.S. Should Receive Advantages Offered To British Emigrants

Moncton, N.B.—The movement which is about to bring British emigrants to Canada must not be accepted by us unless the same advantages which it is proposed to give those newcomers be also given to our own citizens now living in the United States and who are anxious of returning to their country of origin. This was one of the outstanding statements made by the Hon. P. J. Vachon at a public gathering which closed the first day's proceedings of the ninth French-Canadian congress held in this city.

Greetings Were Delayed

St. Paul, Minn.—Christmas greetings for 1926 are being received by about 200 friends of Mrs. and Mrs. A. B. Jackson, Jackson found the bundle of unmailed cards under the seat of his automobile recently and dropped them in the fire along with the car.

Bear Wrecks Sedan

Ashford, Wash.—A picnic party in Rainier National Park returned to their parked car after a short hike and found a large black bear climbing over the top. The son of the sedan gave way under the animal's weight and let it down into the tarmac, where it smashed its way to freedom. All of the car except the chassis was demolished.

HOW JOHN JINKS SAVED LIFE OF COSGRAVE GOVT.

Dublin.—John Jinks, who made his name a household one in Ireland by walking out of the Dail and saving the life of the Cosgrave Government by failing to record his vote, was neither kidnapped nor spirited away.

"I simply walked out of the Dail, I was neither kidnapped nor spirited away," Jinks said this evening. "For the sake of the stability of my constituents I thought it was better to remain the present Government."

Jinks thought the result of the division, which was in favor of the Cosgrave Government only by the narrow margin of one vote cast by the Speaker to break a tie, was a good thing for Ireland.

His action in failing to vote as his colleagues of the National League (Rednecks) did against the Government is likely to result in his expulsion from his party.

The first suggestion that Mr. Jinks might have been kidnapped was contained in a despatch to The Evening Star from its Dublin correspondent, who said that Jinks supported the resolution to vote against the Government adopted at a party caucus recently, "was in his place in the Dail fifteen minutes before the vote was taken, but then disappeared. Captain William Redmond, leader of the National League Party, was quoted in the despatch as expressing the opinion that Jinks' failure to vote with his colleagues must have resulted from his being spirited away, unless he had been overcome by a sudden illness.

Used Flashlight When Lighting Pant Failed

New York Doctor Forced To Perform Operation Under Difficulties

New York.—Mrs. Violet Moore, of Jersey City, is recovering from an operation for appendicitis performed by the light of an electric flashlight in a hospital during an electric storm.

The doctor had just administered the anesthetic when a bolt of lightning extinguished every electric light in the hospital. Dr. Mattar, the surgeon, called for some sort of light and Miss Mary Reed, hospital superintendent, found a flashlight. For an hour and ten minutes the surgeon worked under its rays until the operation was completed. Mrs. Moore was taken from the operating room just as the electric light flashed on again.

Trade Treaty Signed

France and Germany Come To Agreement On Terms

Paris.—France and Germany have placed their signatures on a commercial treaty, based largely on most favored nation tariffs, after three years of frequently interrupted negotiations.

It is a complex arrangement of several thousand clauses, effective September 8. By the treaty France will get better terms on agricultural products, textiles, shoes, machinery, tolls of bridges, and petroleum, while Germany will benefit on chemicals, machinery, electrical goods, cement and leather work. Most favored nation treatment will be applied for both sides by December 10, 1928, in the least.

France won the long contested right to export a limited amount of wines to Germany on favorable terms.

Editors Touring Canada

British Party Will Cover Dominion From Coast To Coast

Montreal.—British newspaper owners and editors, the number of 30, members of the party which is touring Canada, arrived in Montreal from Quebec after completing a tour of the Maritimes and before returning to the Old Land will cover Canada from coast to coast.

"When we get back to Europe again, Canada's story will be told throughout the length and breadth of Great Britain," said John S. Stacey, president of the British Newspaper Society. "After such a journey as this we can never again resist bringing in the name of Canada at every opportunity. Before we left the country to many of us, was just a patch of red on the map of the world. Now we are seeing its amazing proportions and developments for ourselves."

Turk Monument At Gallipoli

Turkish Government To Erect Memorial To Countrymen Who Perished in War

Gallipoli, Turkey.—The Turkish government is to erect a memorial on the heights of Gallipoli to the 200,000 Turks who perished in the Great War campaign there.

According to a member of the Construction Committee it will be of such proportions "that it will make existing monuments erected by the Allies seem no more than insignificance in his of hope."

It will be 122 feet high and 22,500 already has been appropriated by the Ministry of Defence for its construction.

BRITISH PREMIER TO PAY VISIT TO CANADA AGAIN

Halifax.—We have loved every minute of our time. We are tired of course, because we have worked hard," Premier Baldwin told the citizens of Halifax in his parting address.

"I have given every minute of time I could spare to Canada, and when I am through with the duties of my present post I will come again," he added.

The addresses of welcome by the province and by the city were read by Mr. Baldwin, "steeped in the history of this continent and couched in language to warm the heart of an Englishman." The Prime Minister took exception to two words in addresses: Nova Scotia and asked his visit at a holiday and Halifax called it recreation. He felt as though he might have to go back to England to work in order to get a little rest.

On the chain of office worn by the mayor was the date 1749.

"I can almost remember that far back," said Mr. Baldwin. "As it is, I do remember that those were as gloomy and as depressing years as Great Britain ever passed through. And through those dark days—just as it stood as a sentinel. It was the one spot where the flag was never lowered and it is the spot where it will never be lowered so long as the flag flies anywhere. It was here that the Royalists came to take shelter—that magnificent stock, filled in every way, which became the parents of this part of Canada gave the very best to the life of the people of today."

"I read with great interest the report of the commission on the chairmanship of Mr. Andrew H. Duncan," the Premier continued. "I trust the result of that report may be to increase the prosperity of these provinces."

Estate Worth Thirty Million

Brothers and Sisters Of Arthur Walker Receive Large Share

New York.—The will of Arthur T. Walker, heir to the fortune of Edward F. Scates, Matheson, Mann, receiver of the bulk of his \$30,000,000 estate to his four sisters and two brothers. The will, which was filed in Brooklyn, also provided a \$200,000 bequest to Walker's secretary, E. J. Rudd. Mr. Walker, who was a native of Chatham, Ont., was buried in this city last Saturday.

Walker's secretary was bequeathed \$75,000 in the original will dated Feb. 11, 1925, but the fortune of \$24,265,192—the amount was increased to \$200,000.

The secretary was named sole executor without bond. There were numerous bequests ranging from \$2,000 to \$25,000 to friends.

Norwegian Emigrants

Coming To Canada

Quota For U.S. Is Limited and Dominion Benefits

St. Paul, Minn.—Canada is getting the emigrants of Norway, Christian Anderson, an employee of the University of Minnesota agricultural school here, stated on his return from a visit to his native land.

"Under the immigration law of the United States, the Norwegian quota is only a fraction of the number that would like to come here," Anderson said.

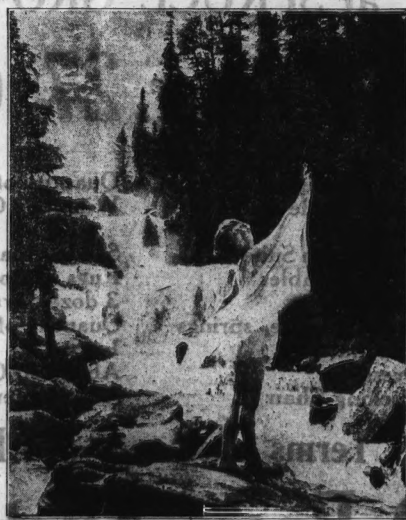

"Canada has been quick to see the point," he said, "and has opened in Norway."

For Protection Of Air Pilots

London.—Pirates on the high seas and highway robbery are now things of the past and air pirates are the danger of today. To meet this new menace, the pilots of billion-carrying aircraft in the British Imperial Airways, Londoners have devised a new device.

Forest Fires In Buffalo Reserve

Edmonton.—Fire rangers have been ordered to the Buffalo reserve near Fort Smith where a fierce forest fire is said to be blazing. The herds of wood and grass buffalo maintained there by the Dominion Government have a lean when the forest of wild hay are destroyed.

Dances to the Wind

"Moving to clouds" originated in the stone and thundering waters that tumble down the Giant's Steps in Paradise Valley. The beautiful dancer is Miss Mona France and the statue with its rugged setting is to be found not far from the Château de la Reine in the Canadian Rockies. Miss France has been holidaying.

Gay Festival At Banff For Scots

Scots folk in Canada and the United States can well look forward with keen interest to renewing acquaintance with many of the delights of the home country on the occasion of a Highland gathering and Festival of Scottish music to be held at Banff September 3 to 6 to which the Prince of Wales has given his patronage.

What, more magnificent setting for a Highland gathering could be chosen than Banff with that vast amphitheatre of Rocky Mountains meeting the headlong waters of the Bow and Spray Rivers. Scottish fur traders who first penetrated these mountains a hundred years ago were awed by the ruggedness of the scene and impressed by its similarity to their own rugged highlands. The force of circumstance and the love of adventure have brought many Scots to this Western world and it is only natural that they should wish to take part again in the old sports and traditional tests of many provinces which will be a feature of the gathering. In addition to a wealth of Scottish music. The recorded history of this music goes back to the days of Columba whose mission, established in the sixth century at Iona, spread its influence all over the south and west of Scotland.

Many of the finest exponents of Highland dancing in Western Canada have intimated their intention to take part in the gathering, and Banff, which is the tourist capital of the Rockies, will be ablaze with the tartans of Scotland. Brawny Highlanders, too, will take part in tossing the caber, putting the ball, throwing the hammer, and other such sports.

Supplementing these features will be a series of concerts in the great ballroom at Banff Springs Hotel, for which several of the best known Scottish singers have been engaged including J. Campbell McInnes noted for the rendering of Border and Highland ballads; Madame Jeanne Dussau, who under her maiden name of Ruth Thon attracted the attention of Mary Garden, the well-known prima donna, by her beautiful interpretation of old Scottish songs; Davidson Thompson, the Winnipeg baritone, who sang with the Minneapolis Symphony; and Ruth Matheson, Winnipeg's fine contralto.

Gaelic singers will be represented by Norman Cameron, tenor and by a group of folk-song vocalists from the Hebrides, who recently came to make their home in Canada.

The programme of Scottish music

has been drawn up in historical sequence, commencing with old ballads of the fourteenth and fifteenth centuries, followed by groups of the periods of Mary Queen of Scots, Stuarts, and Jacobites. In turn there will be songs by Burns, Sir Walter Scott, Lady Nairne, and Christopher North.

Hebridean music, recently made popular by Mrs. Kennedy Fraser will also be featured, and place will be found, too, for the folk-songs and dances of Highland tribes of Indian whose hunting grounds were from time immemorial in the Negebarian Rockies. These Indians will be gathered in a picturesque encampment, and with their tepees and variegated costumes they will add another note of colour to the gathering.

By the courtesy of the Canadian minister of Militia each of the seventeen Highland Regiments in Canada will be represented by its best regimental piper in an endeavor to secure a beautiful trophy offered by E. W. Beatty, chairman and President of the Canadian Pacific Railway Company through whose interest and generosity the organization of this unique Highland Gathering at Banff has been made possible.

Here and There

The west will require 25,000 men from Eastern Canada to assist in gathering the grain crop this year. In all about 67,000 men will be required to complete the work. Arrangements have been made by both railroads to handle the harvesters.

T. D. P. Herzer, manager of the Canadian Colonization Association, states that this organization has placed 400 Old Country families in the Prairie Provinces this year and that 500 other families will arrive before the end of the year.

The fourth annual ride of the Trail Riders of the Canadian Rockies, an organization with a membership including many prominent artists, writers and society leaders in all parts of Canada, U.S. and Europe, left recently from Banff over a new trail for Mount Assiniboine.

A shipment of 1,400 horses purchased in the Prairie Provinces for the Russian Government moved to Quebec over Canadian Pacific lines recently. In addition to the 27 carloads already moved to the east a special train of 17 cars passed through this city en route to the Atlantic coast. The horses in the latter shipment were all purchased at Alberta points.

Members of the newly-appointed Saint John Board of Harbor Commissioners visited in Montreal recently to confer with officials of the Canadian Pacific regarding needed changes and improvements in the harbor facilities of Saint John. Several suggestions advanced by the railway company will be acted upon before the winter traffic begins, according to the Hon. W. E. Foster, president of the Commission.

Interest taken by American Railway officials in the latest achievements in the way of Canadian locomotive construction is emphasized by the fact that the Canadian Pacific Railway Company has been invited to send their latest and most powerful passenger engine to be placed on exhibit at the Centenary Exhibition and Pageant being held by the Baltimore and Ohio Railroad at Baltimore, September 24 to October 8. This C.P.R. 4-6-2 engine, their latest and finest passenger type, will be sent to Baltimore.

The first ticket issued from the new Union Station at Toronto over Canadian Pacific lines was enclosed in a special leather folder, upon which appeared the name of His Royal Highness, the Prince of Wales. Three tickets following were issued to H.R.H. Prince George, Frederick Stanley, Duke of York and Albany, and Mrs. Baldwin. The new union station was formally opened by the Prince of Wales, the Royal train being the first to alight into the new depot.

A cable received at Ottawa by the Department of Trade and Commerce from Harrison Watson, Trade Commissioner for Canada in London, indicates that Great Britain will offer an attractive market for the Dominion's exportable surplus of timothy and clover during the present year. The cable reads as follows: "English hay crop turning out so badly that imported hay will be required. Prospects are that there will be a fair demand for Canadian timothy and clover mixture."

Government Liquor Control Act of Alberta.

Application for Beer License.

Public Notice is hereby given that the undersigned intends applying to the **Alberta Liquor Control Board** for a License to sell Beer by the Glass, or open Bottle, for consumption in conformity with the provisions of the Government Liquor Control Act of Alberta, and Regulations made thereunder, with respect to the following premises:

Duffield Hotel; beer salesroom to be situated in the northwest corner of said premises, on Lot One situated on the Northwest Quarter of Section 26, Township 53, West of the Fifth Meridian, in the Village of Duffield.

DATED at Duffield, Alberta, this 4th day of August, 1927.
JAMES COLLINGRIDGE,
Applicant.

PAINTED FIRES

BY NELLIE L. MCCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER VI.—Continued

"No, no dear Mrs. St. John. I never tell. See, I say my truth. She held up her hand solemnly. 'Oh, fish health; seek truth; know God; serve others. Now, you see, I swear!'"

Groinly wondering and distressed, Helmi went swiftly on her way. The darkness led her to the north end of the city, where, leaving the car line, she went down a narrow old street where second-hand stores spilled their ruined wares all over the street. Dirt and dust, wounds and scratches were so thick on everything, Helmi shuddered with the thought that all the owners were dead and didn't care. Would her dear lovely lady's beautiful chairs and window hangings ever come to this?

The number Helmi sought was on a building that had been painted recently. The name was on the door in gold and red—foreign-looking letters, with many sharp points.

Inside people were eating at narrow tables covered with white oil-cloth. To one of them she went and asked for Sam. She was so distressed to be frightened.

"Upstairs," he said, "outside."

An outside door opened on a flight of dull gray, greasy stairs, which creaked and groined as Helmi swiftly ascended them. She found herself in a dark passage at the top of the stairs, where dismal curtains of dingy brown obscured the rooms beyond. Fear held her there, for a moment, she stood irresolute.

"Sam," she called, "Oh, Sam!"

A face like a yellow pumpkin peered through the curtains at her.

"Whatchawant?" It breathed.

Helmi held out the five-dollar bill. "For a lady," she said, "she is very sick."

"Sam" nodded. He pulled a curtain back with a rattling of rings, and said, "Wait here!"

Helmi entered a room whose air sickened her. It was so strangely cold and dead, a sort of embalmed air which would never yield to sun-

shine. And although it was a very still room, everything she looked at seemed to writhe with a secret motion. A huge black glittering jar stood on the table in front of her, and coiled around it was a red snake with its head lifted ready to strike. Helmi would have sprung back but it held on with its great thingy eyes, and although she knew its tongue would dart out like a red hot needle she could neither move nor scream! Then she saw it was not a real snake at all, and that there were many of them in the room. The writers around the great bowls that stood on a shelf above her head, and gave her the unpleasant feeling that they might uncoil any minute and come down. A bowl of gold made the only friendly gleam in the room as they darted and turned and dove, catching a little gleam of light from the key-light over head, but even they looked pale and dying as if their water had never been changed. Panels of embroidery were on the wall—crimson and gold and blue—stiff with goosebumps and serpents and strange birds that she had never seen. One of the panels was of pale blue satin, on which stood out blood-red flowers. Helmi touched them, wondering, and then looked at her finger tips.

The old man came in with a little box which he handed to her gravely. His ghastly yellow hands had claw-like nails that seemed to twist around her as he took it.

"You little girl—your come see pretty things—old Sam show you for a moment."

Helmi stared without comprehending, at his toothless gums and ghastly hands. "I'm in a hurry," she said, as she started for the door.

Just at that moment, the outside door opened quietly and stealthily steps came up the stairs, one, two, three—then the stairs swarmed.

When Helmi reached the chair she found herself held by a tall, burly policeman. The Shanghai Chop Suey House, long suspected by the police, was undergoing a raid.

CHAPTER VII

The newspapers the next morning carried startling headlines:

"Sensational raid on a downtown opium den! Young white girl found in possession of the drug! Refuses to reveal identity! Appears to understand no English! Spent the night in police cells."

The neighbors all were very sorry for Mrs. Moore when it became known it was her Helmi—the girl to whom she had been so kind that was found in the Chinese den. They were sorry, too, for Mrs. St. John, who really felt very badly over it. "And fancy the deceit of the girl! Telling Mrs. Moore she was going for a lesson! she had been so good to the girl, too—really, it is too bad; but what can one expect from these foreigners with their standards so low?"

"This was from the lady next door!" The minister and his sister called the sister almost hysterical. "My dear!" cried the latter, opening the door without knocking, as one would do if the house were on fire. "You might all have been murdered in your beds with this addict in the house! It is just another instance of God's protecting care. And to think you never knew she had the habit!"

Mrs. Moore sat down and leaned heavily on her broom. "I never saw the girl who loved work like Helmi," she said. "She was a girl who would work like that. But she deceived me—I cannot get over that. She made me think she was getting lessons from Mrs. St. John, and when I missed her that night and wondered

about her, for she was always in time to get tea, I phoned Mrs. St. John, who said she was in bed, and didn't see Helmi at all. Then I asked Mrs. St. John about it, and I got it out of her that Helmi hadn't been coming for quite a while. That has been a terrible blow to me. Now, where was she when we thought she was over there?"

"The minister's brow was contracted and his eyes narrowed. 'I am going to see Helmi,' he said suddenly. 'His sister was about to demonstrate, but the multiplied expression of his face froze even her voluble speech. Edward was so obstinate sometimes, she told Mrs. Moore when he went out.'"

"We were across the road and rang the bell. 'Yes, Mrs. St. John is at home, but she can't see anyone, she is very much upset over the Finnish girl.' The maid's eyes were red."

"What do you think?" he asked her.

"She helped me every day, and sang Finnish songs, and was so happy—she couldn't be a bad girl, Sir."

The maid evidently believed there was a relationship between happiness and goodness. Helmi again was evidence of Helmi's love of work.

"Tell Mrs. St. John I called," he gave her his neatly engraved card.

Reverend Edward Terry, Young Methodist Church.

"I hope you can get her off, Sir," she's only seventeen," said the maid anxiously.

"I hope so, too. I believe she is an innocent girl."

Mr. Terry sought the Police Court, but found that he could not see the prisoner, no one could see her until after the case was heard. From the matron he found out that Helmi was the only person arrested in the raid, and that most serious aspect of the case now was that she had resisted arrest and knocked Inspector Walt down the stairs.

The minister went to the magistrate's office to see if he could not obtain permission to see Helmi. After all, he was her minister.

Magistrate Winslow, a gray-haired, florid-faced old man, sat behind an oak desk and glared at his visitor from under bushy eyebrows. The minister had interviewed the very looking old official. "I am interested in the case of this young Finnish girl who is here under arrest," he said, "she attended my church."

The magistrate's face grew redder. His eyebrows went up like a young willicat, that girl," he said. "One of our inspectors is laid up with a broken arm. I am afraid your ministerial efforts were not very successful in her case, Parson."

(To Be Continued.)

Stop the Cough—Coughing is caused by irritation in the respiratory passages and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will stop the inflammation and in consequence the cough will usually stop. Try it and you will be satisfied.

New Postage Stamp Issue

Further Denominations Of Canadian Historical Stamps Now Available

Three further denominations of Canadian historical postage stamps have been issued. One of the new five-cent stamp appears the head of Darcy McCreck. It is colored purple. The twelve-cent stamp, colored light green, bears the heads of Sir John Macdonald and Sir Wilfrid Laurier. The new twenty-cent stamp which is carmine in color, has the heads of Baldwin and Lafontaine.

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worm Expeller to give relief. Its effects are sure and lasting.

Pleanty Of Cars

San Francisco's entire population could go riding at once if an average of a little less than six persons were charged in each of the city's registered motor vehicles. San Francisco has a motor vehicle registration of 50,000 cars to every 5.7 persons.

Minard's Liniment for cuts and bruises.

World's Smallest Books

Twenty-Nine "Minutes Masterpieces" Exhibited At London Library

What is, probably, the world's smallest book was to be seen in London recently. It contains over forty blank pages bound between embossed leather covers. Four of its size would not cover a penny, yet every detail is perfect and clearly visible without the aid of a lens. This miracle of the bookbinder's art was one of twenty-nine such marvels exhibited at the London Library; the entire collection could have been contained in an ordinary cigar box.

Among these minute masterpieces was a copy of "Galileo" measuring half inch by a quarter inch, which is claimed to be the smallest Italian book set from movable type. More wonderful still was a handwritten copy of the Koran found some time ago in Baghdad. Written in Indian ink on faded paper, this book is octagonal in shape, with one of its eight sides forming the back where the leaves are joined. This curious manuscript is perfectly legible despite the fact that a half-korow would cover it.

A Bible measuring one and a half inches square, and a volume of Dante's half inch smaller, seemed giants in this Lilliputian library. A New Testament about one-fifth of a square inch in area that was kept like some precious jewel in a handsome plush case was so clearly printed that each word could be read without the aid of a magnifying glass through which one could admire the delicate work of the type and illustrations.—T.M.

Not Made In Canada

Patriotic Buttons To Commemorate Confederation Ordered From United States

A Sunday School of the United Church was very loyal to Canada. It had a celebration in honor of the 60th Anniversary of Confederation, and presented patriotic buttons to each scholar. The buttons were emblematic of the Anniversary, and inside, it named the giver—that is the United Church.

But—There was a microscopic lettering on it and read, "Made in U.S.A."

Are there not button manufacturers in Canada?

Could not these buttons have been "Made in Canada?"

Can we imagine a button made for "Independence Day" across the line bearing in small type the legend, "Made in Canada?"

Joined In Welcome

In referring to the visit of the Prince and Princess of Wales to Canada, the New York Times said editorially: "America joins cordially in welcoming these Royal and distinguished guests as they touch her borders. If they had some one hundred and fifty years ago they might have disclaimed it from independence by their reasonableness, their common sense and charm."

New Egg Record

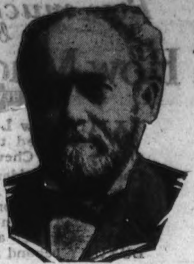

A Barred Plymouth Rock, owned by the University of Saskatchewan, has established a new record for the three Prairie Provinces, laying her 200th egg in her pullet year of which there is still a month to go. The world's record for trap-named production is held by No. 6 Agassiz, B.C. pullet, which laid 251 eggs in 245 days.

Sold Tree Chair For \$4,000

John Krusback, bent the twig and a comfortable chair sprang out of the ground. By grafting and bending the limbs of 22 box elder saplings Krusback trained the trees to grow into the form of a chair. It took 11 years of patient effort, but Krusback sold the "tree chair" for \$4,000.

Minard's Liniment for Burns

It's sometimes as difficult to be right as it is to prove the other fellow wrong.

A Man of Name

Professional Attainment

The originator of Dr. Pierce's Golden Medical Discovery was the late Ray V. Pierce, M.D. At first he practiced medicine in Western Pennsylvania and his unusual ability and success were soon recognized there. Then he moved to Buffalo, N. Y., and established the World's Dispensary where his famous home remedies have ever since been made.

Each succeeding year the sale of Dr. Pierce's Golden Medical Discovery has been greatly increased. Evidently people appreciate the fact that it improves the appetite, stimulates the digestion, helps to enrich the blood, clears the skin of eruptions and blemishes, and makes both men and women feel as they did when they were young. It contains no harmful ingredients.

Ask your nearest druggist for Dr. Pierce's Golden Medical Discovery, in tablet or liquid form, or send 10 cents for a trial package of tablets to Dr. Pierce's Branch Laboratory at Bridgeport, Ont.

Little Helps For This Week

"Do ye kind one to another." Ephesians iv. 22.

A kindly act is a kernel of corn. That will grow to a goodly tree. Shedding its fruit when time has come.

Down the hall of eternity. —John Boyle O'Reilly.

All worldly joys go by. To the joy of doing goodness. —John Herbert.

MISTAKES MOTHERS MAKE IN CARE OF LITTLE ONES

Many mothers give their children solid foods at too early an age and say proudly that their babies "eat everything that grows up people do." Such a course is almost certain to bring on indigestion and lay the foundation of much ill-health for the little one.

Other mothers administer harsh, nauseating purgatives which in reality irritate and inflame the delicate stomach and bowels and at the same time cause the children to dread all medicine.

Absolutely no meat should be given to a child until it reaches the age of its mother, and after that only as approved by the doctor. For medicine, all strong, disagreeable oils and powders should be avoided, and Baby's Own Tablets given instead.

Baby's Own Tablets are especially made for little ones. They are pleasant to take and can be given with absolute safety to even the new-born babe. They quickly banish colic, gas, indigestion, break up colds and simple fevers and make the nursing of teeth easy. They are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

A drug called shalpin, which has the strange effect of making a person's yellow hair, has been discovered by a Scottish scientist.

Mothers Should Use

When the babies are cutting teeth

During the baby's teething time, in the hot summer months, the bowels become loose and diarrhoea, dysentery, colic, and other troubles are apt to arise. To prevent this, mothers should use the following remedy: The gums become swollen, plump from the mouth, and the baby cries and frets to get to the shadow, and very often the teething is fatal.

This is the time when the mother should use Dr. Fowler's, and, perhaps, save the baby's life.

It has been on the market for the past 50 years, put up only by The T. Milburn Co., Limited, Toronto, Ont.

SICK ABED EIGHT MONTHS

After Taking Lydia E. Pinkham's Vegetable Compound Could Do All Her Work and Gained in Weight

Meifort, Saskatchewan. "I had inward troubles, headaches and severe pains in my back and sides. I was so sick generally that I could not sit up and in bed most of the time for eight months. An aunt came to visit and help me as I was unable to attend to my baby and could not do my work. She told me to try Lydia E. Pinkham's Vegetable Compound, and after taking two bottles I could get up and dress myself. I also took Lydia E. Pinkham's Blood Medicine. When I first took the medicine I only weighed seventy-eight pounds. Now I weigh twice as much. If I get out of sorts or weary and can't sleep I always take another bottle of the Vegetable Compound. I find it wonderfully good for female troubles, and have recommended it to my neighbors. I will be only too glad to answer any letters I receive asking about it."—Mrs. WILLIAM HENNING, Box 486, Meifort, Saskatchewan.

Not merely How much you pay but How Much You Get

WITH New Lower Prices is now combined the most Amazing Quality in all Chevrolet history. Chevrolet has widened the circle of automobile ownership . . . provided economical transportation to untold thousands . . . placed within reach of the average motor-car buyer a **QUALITY** and a **LUXURY** beyond all expectations. In judging Chevrolet look not merely at what you pay, but also at what you get. Consider the smooth, fleet performance, the grace and beauty of the Fisher bodies, the ease of starting, driving and stopping, the refined yet rugged quality evident throughout Chevrolet construction. Weigh Chevrolet quality with Chevrolet price and know why Chevrolet has achieved the most spectacular popularity of any car in the world.

SUMMERFIELD & MAYER.

Stony Plain and District.

Mr Chas R Liebert has returned to his home in Indiana. Charlie regretted leaving so soon, such a good place as the Stony district, as he reports being treated in a right royal manner by his friends here.

Mr Ernest Jamieson left Monday with a party, headed for the harvest fields of Saskatchewan.

At the Mission Festival held Sunday Aug. 21, at Immanuel Lutheran church, Rosenthal, there was a good attendance of members of the congregation and visitors. The pastor, Rev G Poetzsch, was in charge of the services, and Rev E Duessenhoef of Ledue preached.

Those farmers in division 1 of Inza M D. who have been bothered with stray animals will be pleased to learn that a pound has been established for this division on the farm of E E Sites.

The boundaries of Holburn S. D. have been altered by adding thereto Se. 8-51-1w5. This being taken from the Tegumseh S.D.

If your eyes bother you, or you suffer from headaches, why not have your eyes attended to by an expert? M M Mecklenburg, eye specialist, will be in Stony Plain next Tuesday, Aug. 30th.

Sporting Notes

Players from the local Lawn Tennis club will pay a visit to Walamun on Wednesday next Aug. 31.

The Sporting Club at Evansburg intend holding a big baseball tournament on Sunday and Monday, Sept. 4 & 5, the latter date being Labor Day. Some five ball teams have signified their intention to be there. Handsome prizes will be awarded the winners of the various contests. Some of the local sports not afraid of a 60 mile motor trip will be present at the tournament.

Bruderheim v. W. League.

The ball game Sunday afternoon on the local grounds between Walther League and a team from Bruderheim resulted in a win for Bruderheim by a score of 18 runs to 14. Bruderheim ball players are a pretty good team, and the localites were forced to yield to the better batting and fielding of the visiting aggregation. W-L batters: Ph. and Carl Enders p. Hy Treit and C Lory c. If the condition of the roads permit, W-L team will play in Bruderheim next Sunday.

The Greatest Crop.

The Dominion Bureau of Statistics in a recent report shows a marked increase in the estimated acreage in the five principal grain crops in Alberta this season as compared with 1928. With the decidedly higher yield which is promised, the total production of grain in the province for 1927 undoubtedly will show an increase of several million bushels over last year's mark.

Dance at Spruce Grove
Wednesday, August 31

Spruce Grove News

A very delightful program was rendered at the picnic Sunday afternoon, on the church grounds, of the pupils of Peace Lutheran Church. The affair was in charge of the pastor Rev H J Boettcher, and in addition to the songs and choruses by the children, some fine selections were rendered by the older folk.

McKeen & Co., wholesale butchers and cattle dealers, last week shipped two cars of choice beef; one of these probably going on to Toronto, for exhibition.

Spruce Grove farmers were well represented at the Stephens meeting in Stony on Saturday night.

The contents of the Selwood home will be offered for sale at 6 p.m. on Saturday next by Auctioneer Brox.

Mrs Selwood is visiting, this week, with friends at Didbury.

A dance is being arranged to be held at the Grove on Wednesday Aug. 31. Martin's orchestra.

Mr McLeod reports the sale of three 10 foot binders to local farmers, viz.: Messrs E C McLaughlin, M Ducholke and Ph Schuetz Tractors will give the motive power on all three.

Rev Father R Smit, O.M.I. will offer Holy Mass and preach in German at St Joseph's church, Spruce Grove, on Sunday next, at 10 a.m.

Back from the North.

Mr Andrew Alt returned last week from a trip thru the Peace River and Pouce Coupe country. On touring the Peace River country, one noticeable feature was the fine looking crops on every hand, with but very few exceptions; and everywhere optimism prevailed. The Circuit Fairs were on, during this trip, and large crowds motored from long distances to attend those held at Grand Prairie, Water Hole, Berwyn. Mr Alt met quite a few of the former residents of this district at present farming up there, and each and every one was enthusiastic as to the future of the district. The roads up there are good, and those who have motor cars are enabled to travel anywhere they please. There are any number of openings for those who wish to go farming, but the good layouts are held at good prices.

The Rifle Club's Chair Men.

Well, the four handsome wicker chairs donated by the management of Edmonton's King Edward Hotel for the best team of shooters in the local rifle club are gone, having been captured last week by Messrs F W Yeats, L Zilliox, T Graden, R E Woods (capt.), at the big shoot at Comet Butte. The second prize went to the team composed of J L McDonald, John (Royal) Miller, D Moyer, J Smith (capt.), Capt. George Powell's team was third, with a score of only 6 behind second place. Some 30 members of the club were present. The high individual score of the day was made by Capt. Jas. Smith, with 32 out of a possible 35. The next high score, 29, was made by Arthur Graden. All shooting was at 500 yd. range.

"Thow Sattle" & Other Weeds

Assemblyman Washburn presided at the meeting held in Stony Saturday night under the auspices of Inga M. D. Addresses were given by W J Stephens, field crops commissioner, and H Peters, an inspector under the Noxious Weeds Act.

The latter gave a very comprehensive account of the operations of the weed inspectors, and also to the educational campaign inaugurated at the same time, and which has borne such good results. Mr Peters spoke of the sow thistle, and stated it was possible that a sample of this Class A weed could be found growing on practically every farm in this district.

Mr Stephen spoke of the time in 1911, when the first sow thistle was discovered on a farm near Medicine Hat. He also told, from personal observation, of the depredations which this weed has made on the farms of Saskatchewan and Manitoba, particularly in the latter province, where farms formerly valued up to \$100 an acre, and to be abandoned by the farmers, owing to the fact that sow thistle choked out any grain crop which may be planted. This gentleman gave a clear explanation of means which should be adopted by those farmers wishing to eradicate this pest.

Samples of sow thistle, tumbling mustard, stink weed and other noxious weeds were handed around among the audience for inspection, and as a means to enabling farmers to identify these when seen on their farms.

FOR SALE. Registered Ayrshire Bull, 2 1/2 years old; price reasonable. Apply M Soltan, Blueberry district.
